Navicat BI Overview:
<https://www.navicat.com/products/navicat-bi>

Pre-built data connectors

Specify and integrate data from any chosen data source with ease.

Databases

Connect to a number of different databases: MySQL, PostgreSQL, SQL Server, Oracle, SQLite, MariaDB, MongoDB and Snowflake.

ODBC

Import data from any ODBC data sources including Sybase and DB2.

File Types

Import data from external files such as Excel, Access, CSV, from data stored on your computer, network, or a URL.

Linked File

Link your chart to data in data sources to update the chart according to changes in the underlying data.

Custom Fields

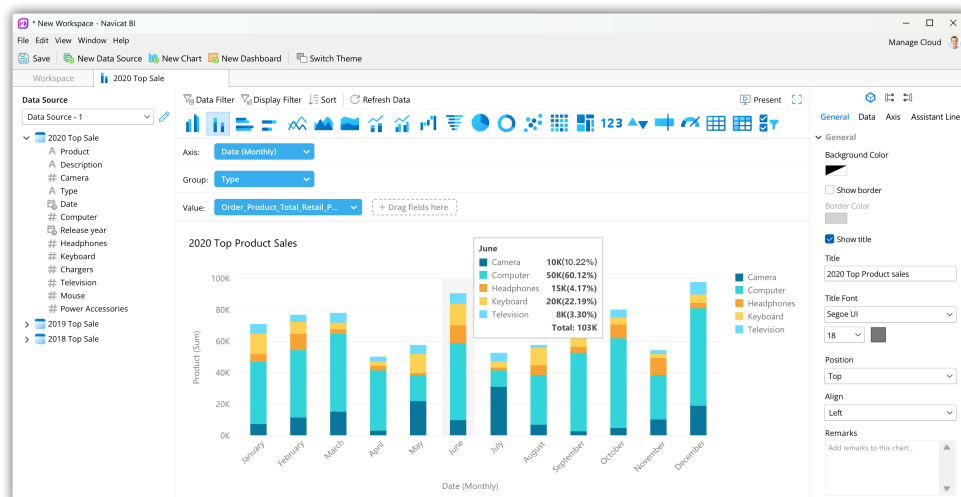

Extend your data with customized fields. You can capture data not available in the standard fields to better suit your unique requirements.

Supported Fields:

Type-Changed Field • Concatenated Field • Mapped Field • Custom-Sorted Field • Calculated Field

Build your own custom chart

Choose the appropriate chart type to ensure your questions are answered and your presentation conveys the message you want to communicate. Add a trend line to your chart to visualize the general trend in your data.

Supported Chart Types:

Bar Chart • Line / Area Chart • Bar • line Chart • Pie chart • Heatmap / Treemap • Pivot Table • Waterfall Chart • Scatter Chart • Value • Control • KPI / Gauge

Create effective dashboards

Build an interactive dashboard to display a collection of your charts. Combine multiple views of data to gain a richer insight. You can also create separate dashboards for different topics that you would like to track.

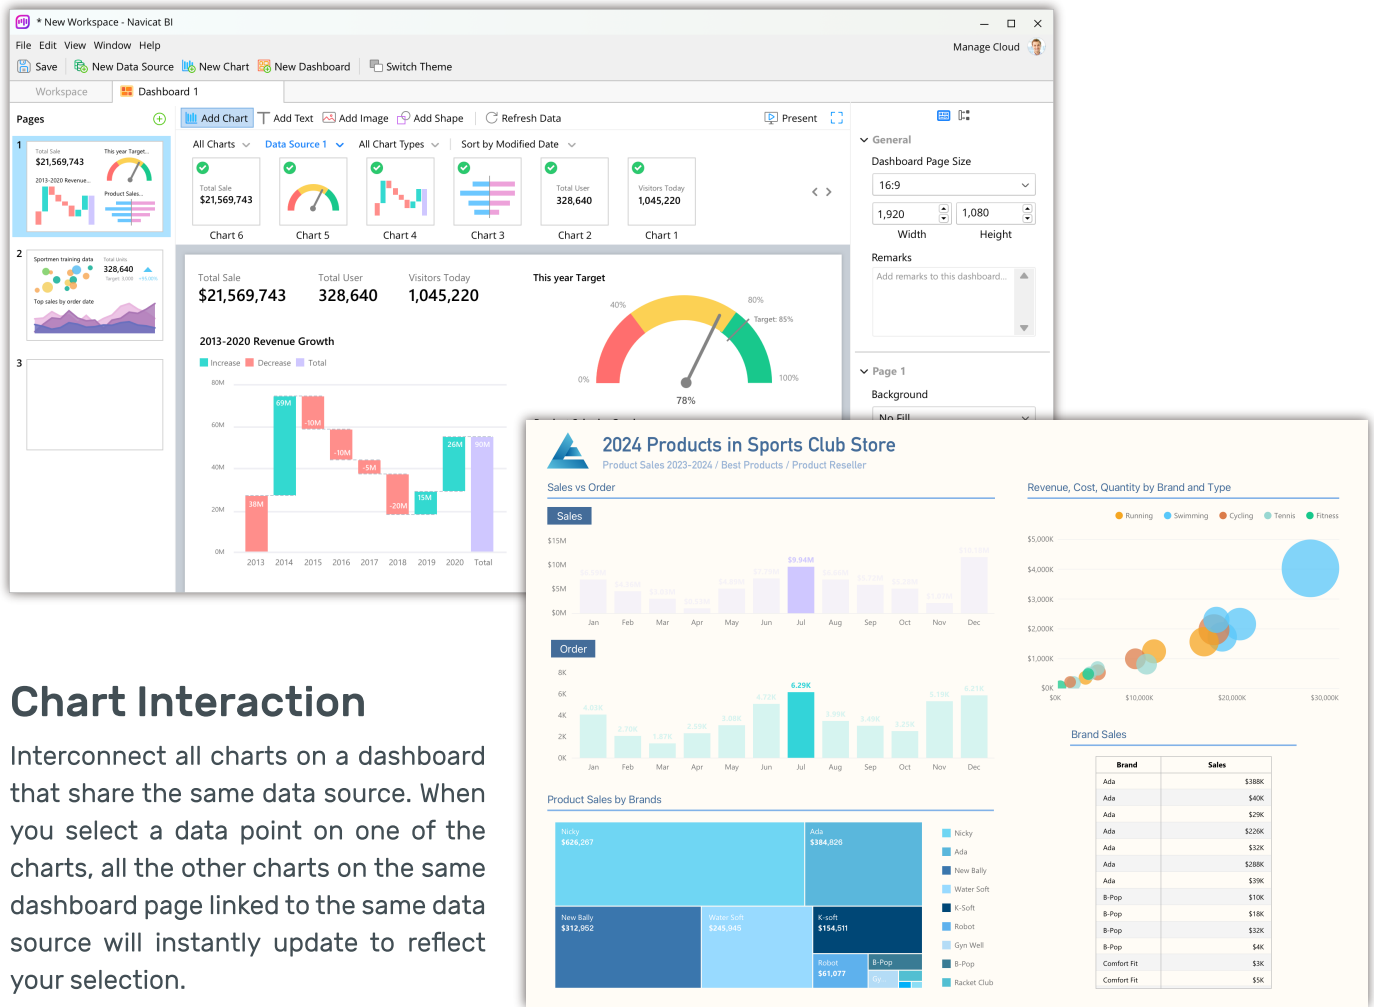

Chart Interaction

Interconnect all charts on a dashboard that share the same data source. When you select a data point on one of the charts, all the other charts on the same dashboard page linked to the same data source will instantly update to reflect your selection.

Fully integrated with Navicat Collaboration.

Synchronize your BI workspaces to our cloud solutions and invite your teammates to the project, where they can create and edit together.

Elevate your clarity with focus mode

Provide a distraction-free environment for you to focus on your charts design. You can maximize the workspace and focus on the specific task without getting sidetracked by extraneous information.

Create Charts Seamlessly with Navicat Native Design.

Navicat is natively designed specifically for a particular platform. We give you a more familiar and optimized experience that feels natural for the system you are running. Navicat delivers more stable and enjoyable experiences for your database management.

More than
50% of the Fortune 500
rely on Navicat every day.

Navicat is the choice of over 5 million database users all around the world.
Over 180,000 registered customers across 7 continents and 138 countries
have chosen our products.
